**INDUSTRY
AWARD 2010**

Winner

FERRINO has won the important prize reserved by the OUTDOOR expo to the best products in terms of innovation. An excellent result for the HIGHLAB apparel line!

ETOSHA MAN & WOMAN

Perfect for travel in tropical climates as well as in heavy-duty trekking, due to excellent breathability and fast drying. The Epic cotton rain jacket and pant have been designed according to the NATUR-TECH concept. This line mixes the most up-to-date outdoor design features with the performance of a natural fiber fabric. The Epic cotton fabric breathes perfectly in high humidity condition and it dries 10 times quicker than other laminated fabric.

The Awards ceremony will be held during OutDoor in Friedrichshafen on July 15, 2010 at 5:30 p.m. at the Fashion Show Stage in Hall A02.
